FOR IMMEDIATE RELEASE

MERIDEN, CONN., Mar. 5, 2010—AGC Incorporated of Meriden, Conn., is pleased to announce the appointment of Paul Murphy as Senior Vice President, Sales and Marketing. He will be responsible for the OEM and MRO sales and marketing functions of the company. Mr. Murphy joins AGC with over 30 years of aerospace industry experience.

Prior to joining AGC, Mr. Murphy was Corporate Business Development Manager at EDAC Technologies, Chief Executive Officer of Senior Aerospace Sterling Machine, President of Stowe Machine, and General Manager and Partner at Precision Speed Manufacturing.

Mr. Murphy is the current President of the Aerospace Components Manufacturers (ACM), an aerospace organization comprised of over 60 Connecticut and southern Massachusetts aerospace manufacturers and support companies.

AGC Incorporated is a premier supplier of precision metallic and non-metallic aerospace components serving original equipment manufacturers, as well as aftermarket aircraft segments. For more information, visit AGC's website at www.agcincorporated.com.
