Eckart & Finard Inc. achieves a Perfect Audit Score in earning AS-9120 Certification and in upgrading their existing ISO Certification to ISO9001:2008, with a scope that includes the distribution of Industrial & Aerospace fasteners and custom engineered components.

Eckart & Finard Inc. (E&F) is pleased to announce that it has earned AS-9120 Certification and upgraded its existing ISO certification from ISO 9000:2000 to the latest standard, ISO 9001:2008, achieving a “perfect score” in the process. These certifications ensure that E&F consistently provides products and services that meet or exceed customer expectations and applicable legal, regulatory and industry required accreditations.

E&F provides products and supply chain management services, including sophisticated “KanBan Inventory Management” programs, to a wide range of customers and market segments including OEM’s in the aerospace, marine, automotive and military industries. E&F seeks to be our customers’ one-stop source for standard & special-make-to-print fasteners and inventory management programs. E&F also provides custom machined and fabricated parts to print specifications, including stampings, castings and injected molded components. This is accomplished via “state-of-the-art” bar-coded warehouse facilities and factory-trained staff dedicated to lean-manufacturing and continuous improvement concepts. Every supplier is held to the highest ethical and quality standards, using the latest manufacturing technology at each stage of their manufacturing and distribution process.

Earning AS-9120 and ISO 9001:2008 Certifications attests to E&F’s commitment to operating at the highest standards of quality, continuous improvement and total customer satisfaction.

E&F is a privately held Corporation with offices and warehouse facilities located in Hartford, CT.
