

## **Aerospace Components Manufacturers, Inc.**

ACM is a network of independent Connecticut-based aerospace companies; a non-profit partnership that is part of Governor Rowland's Industry Cluster Initiative. Working together as a network, member companies collectively offer broader capabilities than they could as individuals. ACM helps capture new business opportunities for Connecticut's aerospace industry.

### **Mission Statement**

To lead member companies toward expanded market presence based upon increased competitiveness obtained through the implementation of Lean management principles and practices, workforce skills development, and group purchasing.

### **ACM's Strategy**

To achieve recognition of ACM member companies by worldwide aerospace customers, identifying them with the ACM network's reputation for world-class standards;

- Lean production
  - Cost competitiveness
  - Response to customer requirements
  - Innovation
- The most cost effective manufacturing – meeting the requirements of the worldwide aerospace industry with products and services of unsurpassed quality.
- Fast turnaround times – always meeting customer delivery requirements.
- Multi-company teaming – providing added value and enhanced procurement and logistics savings for the customer.
- Customer's savings in supplier management – eliminate the need to send representatives on repeated trips checking on isolated suppliers; a wide range of vendors can be monitored in a single location.

**Together. A world of expertise.**
