

Metals Testing Company

News Release

Metals Testing Company Ultrasonic Testing Services Hamilton Sundstrand Approved

Metals Testing Company (MTC) is now approved to provide Ultrasonic Testing (UT) for Hamilton Sundstrand parts. The approval includes both immersion and contact based UT.

MTC, located in South Windsor, CT (USA) provides NDT laboratory inspection services to various markets ranging from aerospace to automotive industries. Their in-house capabilities include immersion and contact ultrasonics (UT), chemical etch and etch anodizing, fluorescent penetrant inspection (FPI), and magnetic particle inspection (MPI). With regard to aircraft engine manufacturers, MTC is one of the few approved independent laboratories in the world for providing Blue Etch Anodize (BEA) inspections.
