John Kibbee
Manager, C&I Efficiency Programs

Energy Efficiency for Optimized Production

Aerospace industry energy usage

High energy consumption = **greatest opportunities for energy savings**

CT and MA have **faster payback** on energy efficiency improvements compared to other states

When you pay your energy bill, you're investing in **Connecticut's clean energy future**

CT investments in energy = productivity and **efficient economy**

Eversource

Your trusted energy advisor

Guidance selecting a suitable program | Where are energy costs and supply going
Energy Efficiency Fund | Sustainability goals

Recommended only if savings are likely

Strategic Energy Management

Retrofits and replacements for existing equipment

Manufacturing process flow improvement
(Lean manufacturing)

Includes Kaizen

Energy usage within plant

A photograph of three construction workers on a site, wearing hard hats and face masks. They are looking at a set of blueprints held by the worker in the middle. The image has a green tint and a semi-transparent white text overlay.

How We've Helped Members Optimize

Summary ACM members participation in Eversource programs:

42 ACM members participated in Eversource programs (2019-2017)

Number of projects completed by customer ranged from 1 – 18 projects

Total # projects (2017-2019): 134.00	
Total kWh savings	11,042,505.33
Total CCF savings	7,727,220.77
Total Eversource incentive	\$2,830,902.84
